

FORMER RESIDENT IS HERE WITH PROMOTION FROM SUPERIOR CAMP

**G. H. Mullins, Now of Miami,
But Formerly Resident of
This District, Now With
Gila-Pinal Copper Co.**

G. W. Mullins, at one time a resident of the Warren District when he ran the hoist for the C. & A. company at every shaft of that organization except the Hoatson, has returned to Bisbee from Miami. He will remain here some weeks in the interest of the Gila-Pinal Copper Company.

The visitor has been running hoist for the Miami Copper Company for several years and became interested in the new company some months ago. He will open an office in the city within the next few days to represent the organization in this region.

Gila-Pinal Copper Company owns a matter of 130 claims near Superior, Arizona, Pinal county. Its property is said to be among the best looking in that region of the state and the men behind the new promotion predict a great future for the company. It is backed by some well known mining men and business men of Pinal and Gila counties, and, undoubtedly, will successfully bid for support in the Warren District.

HUNDREDS PRESENT AT FISHER-QUILL WEDDING LAST EVE

Miss Gertrude Fisher, daughter of Mr. and Mrs. Joseph Fisher, last night became the bride of Mr. J. J. Quill, in one of the most impressive and most largely attended weddings ever held at the Presbyterian church. The ceremony was pronounced by Rev. Dr. Frye, after which a dinner party was given at the home of the bride's parents at which upwards of two score of the couple's most intimate friends were present.

Following the dinner, the evening was given over to an immense celebration at Odd Fellows Hall, which was attended by several hundred friends of the two. There was dancing, music and refreshments throughout the evening. The dinner party was composed of Mr. and Mrs. Quill, Mr. and Mrs. Fisher, Mr. and Mrs. Wm. Callister, Mrs. Lewis, Miss Benita Lewis, Willie Fisher, Miss Sara Nichols, Mr. Herbert Hall, Miss Hazel Harris and Mr. William Kelly.

Mr. Quill is at the head of a local coal and transfer business in Bisbee. The announced engagement of the two a few days ago came as a complete surprise to the intimate friends of both, so secret had the development of their romance been kept. Mr. and Mrs. Quill will be at home on Tombstone canyon after November 17.

SMITH-WIESSNER WEDDING PROVES MUSICAL ROMANCE

A romance which had its inception a year ago in a local musicale, was brought to a happy culmination last night, when Miss Blanche P. Smith, daughter of Mr. and Mrs. G. W. Smith, became the bride of Mr. Oscar K. Wiessner, at the Presbyterian church. Rev. John C. Frye pronounced the impressive ceremony.

The wedding was attended only by the immediate friends of the two, after which Mr. and Mrs. Wiessner left on the Golden State Limited for California for a short part on their honeymoon. They will be at home on Roberts avenue, Tombstone canyon after December 1.

The bride is one of the most charming and talented young women in Bisbee. As a pianist, she has appeared here and elsewhere in recitals with glowing success, coming here from Grinnell college, Iowa, where she did post work, not more than a year ago. It was through her music that the romance began. Wiessner, also musical, had sung repeatedly in public, and in Mrs. Wiessner he has found a perfect accompanist.

Mr. Wiessner's home has been in Boston, where he was graduated a few years ago from the Boston Tech., coming to Bisbee shortly after, since which he has been assayer with the Shattuck mine, and one of the most popular young business men of the District.

TRIES BLACKMAIL ON AMBASSADOR'S WIFE

(Continued from page one.)
ment with Prince Hatzfeldt at his home. A few hours later he arrived there and conversed with the counsellor for half an hour. One federal agent was hiding behind a door in the room. Another was in the street outside. A police detective was nearby. It is said that Prince Hatzfeldt showed Graves the \$3,000 and that the latter said he would go to his hotel and get some of the documents he did not have with him. Leaving the house, he walked into the arms of a federal agent and was taken to the department of justice where for hours he was examined by Bruce Bielaski, in charge of the bureau of investigation and his assistants. At the end of the examination, Mr. Bielaski swore out a warrant. All the papers in Graves' possession were taken from him.

Some Spicy Gossip.
The letter which Graves is alleged to have said would prove "embarrassing" to Countess von Bernstorff, was couched, federal investigators asserted, in "endearing terms" and signed with initials only. It was asserted by the officials that the communication was from a young cousin of Count von Bernstorff who has been taking care of his and the countess' business affairs in Germany.

Graves' first appearance in public after his arrest was at the office of U. S. Commissioner Taylor, where, surrounded by federal agents and police detectives, he was brought for arraignment. He was faultlessly attired, swung a light walking stick and viewed the proceedings with a faint smile until the question of bail was brought up. He requested that should he be unable to secure a bondsman, he be permitted to spend the night in a hotel, under guard of detectives, whose expenses he offered to pay.

"I should like," he said, "to save spending the night in a cell."

It was ordered, however, that he be locked up, unless bail should be furnished. A professional bondsman furnished the required sum. In reply to questions Graves made the following statement to newspapermen:

Says He's American.

"I have nothing so important to say. I may never make a complete statement. I am an American in every sense of the word. I have American ideas. I have declared my intention of becoming a citizen of this country and have taken out my first papers."

"I am now a writer, a lecturer and lately have been writing scenarios about my experiences as an international spy."

"I have been in this country two years and nine months. Yes, it is true that I was once connected with the British foreign office, but I am no more."

"Blackmail" Distasteful.

"I came to Washington for the sole purpose of disposing of the papers. I had no intention of blackmailing the Countess Bernstorff. I object to the charge of blackmail; I do not like the word. I made no attempt to communicate with the countess. I do not deal with women. I dealt with Prince Hatzfeldt."

"I will not at this time discuss the contents of the papers I had. I will say, however, that I was just employing the same methods which the German embassy has used in this country for the past two years and four months."

Graves admitted that he wanted to make the money out of the letters. He said he paid \$2,400 for them and wanted to make a \$600 profit.

When Graves was searched, detectives found in one of his pockets a small combination knife and pistol. The detectives handled the odd weapon carefully until Graves told them it was "just a noise maker" and that the bullet it carried "would not even pierce a man's coat."

A high official of the embassy said tonight:

"We had this man arrested because he wanted to let it be known that no person attached directly or indirectly to this embassy can be made a victim of blackmailing schemes. We have no secrets."

Officials said tonight that Countess von Bernstorff probably would not be asked to appear personally against Graves.

WAR "SUBS" ARE DUE AT NEW LONDON

(Continued from Page 1)

Elving was lost as a result of a collision with the German lines. These and five torpedo boats constituted the German losses, Captain Koeng declared. He described the arrival of the German ships at Wilhelmshaven as a very impressive sight. Some, of course, were more or less damaged, he said, but before he left for America on his last trip all were ready for action again.

SIX MONTHS RACING OPENS IN TI JUANA

SAN DIEGO, Nov. 11.—The fall and winter racing season at Tia Juana, Mexico, was inaugurated today with a large crowd in attendance.

The pick of the horses from the recent meet in Reno, and many from the east will be stabled at Tia Juana for the winter.

Six races will be run each day except Monday during the season, with handicaps scheduled on holidays.

OLD DOMINION EX. IS BACKED BY MEN LUCKY ELSEWHERE

**Original Locators Have Met
with Good Fortune in Other
Fields, Some Among the
Earliest in Arizona.**

An interesting phase of the Old Dominion Extension is the success which the original locators of several of the Old Dominion groups have met within other fields. Both the Gill and Sullivan groups have been held for many years without changing hands until the property was acquired by the Old Dominion Extension. Frank Gill, one of the pioneers of the Globe district, settled in that district in 1881, locating the Iron Mask group. Other locations made at the time were the Globe Ledge, Hoosier, Gray and Buffalo, all now part of the productive area of the Old Dominion. The Carrie smelter was erected in the vicinity of the Globe township to treat ores of the Carrie and Big Johnnie mines.

The superintendent of the smelter was John Williams, father of Ben Williams and Louis Williams, of Bisbee fame, and John Williams, Jr., first superintendent of the Old Dominion.

Frank Gill held a large interest in the Sun claim in the Ray district, and sold that ground to the Ray Consolidated, which company has developed a large body of disseminated ore on that property. Dan Sullivan bonded his group in the Miami district to the Cordova Copper company. It was later acquired by the Gunn-Thompson interests, who sold the property to the Inspiration Consolidated Copper company.

A FEW FACTS CONCERNING THE MIAMI MOTHER LODE MINING COMPANY

Eight liquidation sheets on returns from the FIVE POINTS MINE from shipments of ore now through consolidation known as the MIAMI MOTHER LODE MINING COMPANY were sent east today upon request of an eastern syndicate of Boston brokers. These certified returns show 22 per cent copper, the lowest 11 per cent, with good gold and silver values.

This syndicate has initiated a campaign throughout the east in behalf of the MIAMI MOTHER LODE stock.

The compressor has been installed at the mine. A few minor connections have yet to be made when the force of men will be increased. Drifting and sinking will be rapidly pushed, sulphide ore of a high grade having already been encountered on the 140 foot level.

The opinion that the MIAMI MOTHER LODE is a mine of great value is verified by the heavy purchases of stock by the foremen and miners employed at the property.

The directors feel assured of a continuous rise in the price of stock due to the fact that shipping of ore will take place when the stock is quoted on the market, the Five Points, on its own shipping record, reaching \$6.00 to \$8.00 per share, for a long period of time, when the wealth and prestige of the Miami district was unknown to the eastern investing public. The MIAMI MOTHER LODE ore has proven richer as sinking continues. Assurance that heavy buying of MIAMI MOTHER LODE stock will take place when stock is quoted on the curb is given by the fact that several cities have been assured of one dollar per share on their purchases of market stock. One director guaranteed 40,000 shares at \$1.00 in a small New England town. Some large orders from the north and east are now coming direct to the Miami office.

The local directors, as well as the eastern members of the directorate, wish to notify stockholders that the eastern campaign, now conducted by brokerage firms throughout the east, is exclusively directed to buying on the Boston market.

Eastern capitalists and their friends, who are interested in the MIAMI MOTHER LODE are co-operating with the brokerage syndicate and assure the stockholders of the success and rapid rise of the stock in that the proven ore already encountered in the MIAMI MOTHER LODE justifies.

The MIAMI MOTHER LODE has been favorably passed upon by the following eminent engineers: E. G. Spillbury of New York, George Fisher of El Paso, F. A. Hill of Washington, D. C., and J. W. Prout of Denver, Colorado. The eastern syndicate positively assures us of the listing of the stock upon its merits and the ore values already encountered. Application has been made and all stockholders will be advised of the day of the listing on the Boston curb.

G. D. BARCLAY,
Secretary-Treasurer, Miami Mother Lode Mining Co. (Advertisement)

POLISH LEAGUE THANKS KAISER FOR KINGDOM

BERLIN, Nov. 11.—(By Wireless).—Representatives of the League of the Polish Commonwealth today forwarded to Emperor William through the governor general a telegram expressing thanks for the proclamation of the Polish kingdom which is described as a guarantee of the fulfillment of the most ardent wishes of the Polish people.

BISBEE HIGH 11 HOLDS TUCSON TO HOT 0 TO 0 TIE

Bisbee's high school eleven and the Tucson high played a nothing to nothing tie at Warren Park yesterday afternoon before the largest crowd that has witnessed a football game here this season.

Replete with dashes, forward and fake passes, and line plunges, the warriors battled in vain, and when it was over, the fellow who could have picked a winner would have deserved an iron cross.

Several times the teams came near scoring, only to be met with a sudden stiffening of the opposition, when the ball was forfeited on downs and kicked out of danger.

BUZUKOS THROWS HUGHES.

Pete Buzukos, the wrestler, won his match from Hughes, the middleweight at Douglas last night. This was the only news available on the match early this morning.

AUTOS PROVIDE LIGHT IN NIGHT FOOTBALL GAME

STILLWATER, Okla., Nov. 11.—Headlights from more than hundred automobiles illuminated the gridiron during the last two periods of the football game here today between Oklahoma A. and M. and Central State Normal.

The A. and M. team defeated the visitors.

COMB SAGE TEA INTO GRAY HAIR

Ladies! Try this! Darken beautifully and nobody can tell—Bring back its gloss and youthfulness.

Common garden sage, brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

ROAD RACE THROUGH BISBEE TO PHOENIX

(Continued From Page One)

Arrangements have been made to see that the streets of this city and those of the other cities which the cars pass through are closed to traffic at the time the cars begin to arrive and for fifteen minutes before.

The big Stutz entered by the Douglas Motor Company and the Pope entered by Hugh Miller of Phoenix are the favorites in the betting. The Pope was the winner in the El Paso Phoenix race two years ago when it was driven by Miller and he has been over the road a number of times within the past week.

The purse for the race is \$2,000, split four ways: first, \$1,000; second, \$600; third, \$300, and fourth, \$100. In addition, cash prizes have been hung up by several towns for the cars making the fastest time between Douglas and these cities.

Among the Douglas entrants in the race will be Jack Hinton, Hudson; Frank Larson, Cole; Douglas Motor Company, Stutz; Frank Sawaya, Stearns Knight; Bert Hines, Pierce-Arrow; George Simon, Buick, and H. A. Temple, Ford. The latter entry is the subject of much joshing by local motorists, and Temple says he may surprise some of them when he starts ducking and diving around some of the curves in his little mount.

One of the lightest cars in the race and one which is expected to give a good account of itself is the Paige "38," entered and driven by A. L. Cord, of the Cord-McKinney company, Phoenix. Cord and Dug Phillips, who will ride with him, were busy today putting the finishing touches on their little benzine buggy.

At Florence time will be taken out in event the machines can't cross the river under their own power. Owing to the high condition of the Gila it is thought that the drivers may be compelled to cross on a ferry.

The finish will be at the entrance of the Arizona State Fair grounds in Phoenix, after the drivers have circled the race track once.

Men's New Footwear

—Never in the history of style has Dame Fashion sharpened her wits to such varied and clever expressions in men's footwear. We're keeping pace with all the practical suggestions and pricing them low.

—Newest ideas in "mahogany tan calf with kid tops, gun metal bluchers, black French calf, tan bails, Koko tan bails and black steel calf—splendid values at \$5, \$6 and \$7.50.

Phelps Dodge Mercantile Co.

Arizona Ray Copper LISTEN

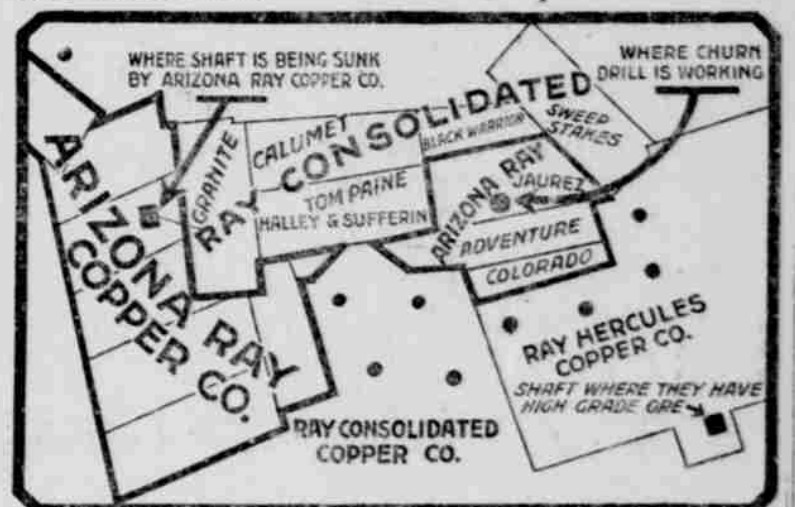

Do you realize that during the past six weeks we've placed right in your hands one of the greatest money-making opportunities ever offered to an investor? Do you fully realize that right at this minute the opportunity may be slipping through your fingers, never to return?

Possibly You Remember This

Three years ago investors hesitated to buy United Verde Extension, BECAUSE—they had been educated into believing that Senator Clarke had all the valuable copper property of the Jerome District tied up within the bounds of his United Verde. Investors hesitated to buy United Verde Extension, three years ago at FIFTEEN CENTS TODAY—they do not hesitate to buy it at FORTY DOLLARS. How many people do you suppose there are in the United States who are mighty sorry they let the opportunity to buy United Verde Extension slip through THEIR fingers, when it was practically giving begging three years ago? Three years ago, 15 CENTS—TODAY—FORTY DOLLARS.

Intensely Interesting, Isn't It?

But not one bit more so than the story of ARIZONA RAY can be, possibly in half of three years or even much less. Just as the United Verde Extension undoubtedly contains an extension of the great and rich ore deposits of the famous Clarke property, we believe—and we have every reason to believe—that ARIZONA RAY will develop stupendous ore bodies similar to those of the close-by RAY CONSOLIDATED, one of the richest mines in the world. WHY do we believe this? Because the 12 claims of the ARIZONA RAY, comprising 170 acres, lie in the same proven zone as the RAY CONSOLIDATED, one of the richest copper mines in the world. WHY does the formation of the copper deposits in the proven zone of the Ray Consolidated and Ray Hercules properties, are present in the properties of the ARIZONA RAY.

Buy Now Before the First Drill Strikes Ore

Today, you STILL have the opportunity to buy ARIZONA RAY at a low figure, but it is not at all probable that you will have it again. Development work is being pushed just as rapidly as is possible—the first drill has already encountered a change in formation which promises ore at a depth of less than 200 feet, and with three shifts working every minute of the day and night, word that the drill is in he ore body may reach Los Angeles any moment. WHEN IT DOES—we do not believe ARIZONA RAY will stop below One Dollar per share, and we strongly advise its purchase NOW, while it is possible for you to get it around 28 cents.

Listed on the Los Angeles and San Francisco Stock Exchanges.
